

TSN Simmentals

2019 Annual Bull Sale

Tuesday, March 19th, 2019 1:00 P.M.
Platte Livestock Market- Platte, SD

Selling 50 Registered Simmental and SimAngus™ Bulls

TSN Simmentals SimAngus & Simmentals

Annual Production Sale

Cattlemen & Cattlewomen,

Again, I want to thank you for your interest in our 2019 bull offering. I think anyone in the cattle industry knows that the biggest challenge of 2018 and going into 2019 has been the weather. Looking back, it seems like these bulls have spent the majority of their time in either snow or mud. You'll definitely see it reflected in birth weight and rate of gains, not to mention ears! Our bulls were weaned and stepped up slow to produce athletic, sound bulls that will last. The test period for the bulls was greater than 99 days on feed. Our calves are also raised with no creep feed. This helps us get a true picture of the Dam's maternal value. We breed cattle that will profit your operation. Study the meaning of the Simmental Indexes and compare ours to the industry. We keep you in mind when we breed our cattle!

We are offering to take the bulls home and winter them free of charge until April 15. At that time, delivery arrangements will be made. There will be a \$100 credit per bull on the purchase price if you take the bull home on sale day.

If we can help in any way, give us a call. If you want video or more information, let us know. Thanks again for your interest in our bulls and feel free to stop by and go through the bulls any time prior to sale day.

Thanks,

TSN Simmentals

Tim, Sandy, Rebecca, Shad, and Sawyer

27005 360th Ave. Platte, SD 57369

(605) 337-3503 Cell: (605) 207-0229

Email: tsnsimm@midstatesd.net

Other sale day phones:

Dave (605) 770-7518; Mark (605) 730-1333 or Valerie (605) 680-2619

EPDs:

Please note these EPDs may change from the time the sale catalog is printed until registration papers are transferred.

Announcements:

Announcements made sale day take precedence over printed material in the sale catalog. Anyone attending this sale attends at their own risk. TSN Simmentals and sale force will not be held responsible for any personal injury while attending this sale.

Terms of Sale:

Terms of sale are cash and the new owner is responsible for the bulls following the sale. Please let the sale clerks know if you plan on hauling your bull home sale day or if you want Tim to take them home to be wintered.

Semen:

TSN Simmental Ranch retains 1/2 revenue sharing interest in semen sold from bulls in this sale.

Bull Buyer's Guide

Definition of Terms

Explanation of how to Utilize API and TI Indexes

First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described to the right, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or, put another way, how much a bull is worth compared to another. Or, put another way, how much you can pay for one bull compared to another. For example, when buying an all-purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a \$50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4yr. +\$6,000) A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For more information, visit www.simmental.org.

All-Purpose Index (API): Dollars per cow exposed under an all-purpose-sire scenario (see left for more details)

Expected Progeny Differences (EPDs): EPDs are the most accurate and effective tool available for comparing genetic levels.

Back Fat (BF): Inches of backfat.

Birth Weight (BW): Pounds of birth weight.

Calving Ease (CE): Percent of unassisted births when used on heifers.

Carcass Weight (CW): Pounds of carcass weight.

Maternal Calving Ease (MCE): Percent of unassisted births in first-calving daughters.

Milk (MLK): Pounds of weaning weight due to milk.

Marbling (MRB): Marbling score.

Maternal Weaning Weight (MWW): Pounds of weaning weight due to milk and growth.

Ribeye Area (REA): Square inches of ribeye.

Terminal Index (TI): Dollars per cow exposed under a terminal-sire scenario

Weaning Weight (WW): Pounds of weaning weight.

Yearling Weight (YW): Pounds of Yearling weight.

Yield Grade (YG): Yield grade score.

A few comments on the nutrition of Tim's bulls. When these bulls were weaned, we put together a GROWING ration not to maximize gain, but rather to develop the bulls slowly and correctly. The bulls are still on this ration today. In the seedstock industry today, it seems that the price we are willing to pay for a bull is affected by how fat the bulls are, and we are not distinguishing the difference between bulls that are fed too "hard" and bulls that are not. A fat bull has the tendency to have feet problems, lower semen quality, and no longevity. He may be easier on the eyes, but if he needs to be replaced in 2 years, is he really the right bull for your program?

Tim has done a great job putting together some outstanding pedigrees. Feel confident that when you make your visual appraisal of the bulls, they are not lying to you. There's no "fluff" fed on. We at Pranger's Feed Mill are very proud to put our stamp on this set of bulls.

One of the top weaning bulls in his contemporary group, he ranked 3rd of 46. Unfortunately I did miss getting a birth weight due to our less than ideal March weather.
